

"As 5G gathers momentum in the drive for full global 5G standard, with vertical industry commitments, demonstrations and trials, pioneer 5G services should be available soon in the US and South Korea. We forecast 178 million 5G subscriptions in the EU-28 at the end of 2025."

*Carole Manero, Lead Wireless analyst*

## KEY ISSUES & COVERAGE

- > Will 5G satisfy verticals' needs?
- > Will the use of spectrum above 6 GHz be economically viable?
- > How long will 5G be viable?
- > Will less advanced countries benefit equally from 5G?
- > How will SDN/NFV impact mobile networks?

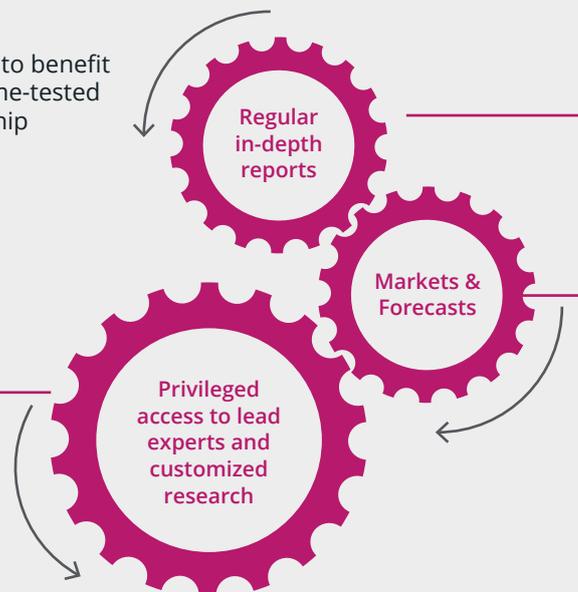

## THE SERVICE

Our complete solution allows you to benefit from our 40 years of expertise: time-tested and cutting-edge thought leadership

### Add-on services

- > Up-to-the-minute assistance
- > Webinars
- > Workshops
- > Custom research

### A set of in-depth reports on a regular basis:

- > 2G/3G switchover strategies: will 3G disappear first?
- > Service offering strategies waiting for 5G
- > Fixed Wireless and hybrid access
- > The Critical IoT & 5G
- > 5G Monetisation
- > ...

### Database & Forecasts up to 2022

- > 46 countries and 75 LTE operator fact sheets
- > Worldwide coverage: MEA, APAC, EUR, LatAm, North America
- > Real-time updates
- > Subscriptions and revenues
- > 5G rollouts: projects and trials
- > Spectrum : quantity, frequency band, type (FDD, TDD)
- > Core data & info about offering, technologies & investments

Over 100 multinationals trust in IDATE DigiWorld expertise, our wireless clients include:

## OTHER RESEARCH SERVICES

We provide dedicated research services, delivering vital insights to vendors, service providers, IT and Internet players, media groups and verticals: offering a 360° view of key markets, through up-to-date figures and forecasts up to 2022 and a concise set of in-depth reports

### Digital Telcos

Global tracking of key Internet services, and insights into the challenges telcos are facing.

### Internet of Things

A pioneer in M2M and IoT markets, today we are exploring how IoT will impact vertical sectors.

### Future TV & Digital content

In this fast-changing market, we are using our unique expertise in TV to explain every facet of the OTT migration.

### FTTX & Gigabit society

Proud provider of 10 years of benchmark analysis for the global superfast access market.

### Wireless 4G & 5G

After having launched one of the first LTE market watch services, we are looking ahead to 5G and its applications

## DigiWorld Watch

An annual watch service that provides a valuable addition to our five core market watches, giving you analyst briefings and expert reports on the latest news in emerging technologies & innovative strategies: NGN plans, Digital China, Video Game, Artificial Intelligence,...

### BENEFIT FROM A POWERFUL & INTERACTIVE DOCUMENT PLATFORM

Our easy-to-use system gives you greater flexibility in accessing and using our incisive research – saving you time and delivering greater value.

- › Full-text search function
- › Create custom reports & datasets
- › Export figures, tables and report sections
- › Communicate more effectively with colleagues
- › Translate reports into multiple languages

### ABOUT IDATE DIGIWORLD

Since 1977, IDATE DigiWorld's teams of specialists have earned a global reputation for independent, high quality analysis of digital industry markets, through three closely linked areas of activity:

- **Institute:** a European think-tank for members, policymakers and digital transformation stakeholders
- **Research:** a global observatory of digital markets and innovation
- **Consulting:** bespoke market research and consulting solutions
